

Journal of Information Assurance and Security

Volume 1, Issue 4, December 2006

CONTENTS

M.K.Viswanath and A.R.Deepti A New Approach to a Secure Cryptosystem using the Microcontroller	229
Xin Xu Adaptive Intrusion Detection Based on Machine Learning: Feature Extraction, Classifier Construction and Sequential Pattern Prediction	237
Yong Feng, Jiang Zhong, Chun-xiao Ye, Zhong-yang Xiong & Zhong-fu Wu Intrusion Detection Classifier based on Self-Organizing Ant Colony Networks Clustering	247
Nalini N and Raghavendra Rao G Genetic Algorithm and Dynamic Tunneling Based Heuristic Studies in Cryptanalysis of Stream Ciphers	257
Jinwei Wang, Shiguo Lian, Yuewei Dai, Guangjie Liu and Zhen Ren Secure Semi-Fragile Multi-Feature Watermarking Authentication Scheme	265
Bo Zhou, Qi Shi, and Madjid Merabti Balancing Intrusion Detection Related Energy in Ubiquitous Computing Networks	275
Zhongtian Jia and Yuan Zhang An Elliptic Curve Based User Authentication Scheme with Smart Cards	283
