

Journal of Information Assurance and Security

Volume 2, Issue 3, September 2007

CONTENTS

Konrad Wrona and Krzysztof Szczypiorski Guest Editorial	153
Michael Menzel , Christian Wolter and Christoph Meinel Access Control for Cross-Organisational Web Service Composition	155
Ivan Dolezal , Jiri Grygarek, Ondrej Jakl and Karel Krecmer Dealing With Network Security in Academic Institutions – a Case Study	161
Krzysztof M. Brzeziski On Common Meta-Linguistic Aspects of Intrusion Detection and Testing	167
Krzysztof Golofit Picture Passwords Superiority and Picture Passwords Dictionary Attacks	179
Evgeniya Nikolova and Veselina Jecheva Anomaly Based Intrusion Detection Based on the Junction Tree Algorithm	184
Alessandro Sorniotti, Laurent Gomez, Konrad Wrona and Lorenzo Odorico Secure and Trusted in-network Data Processing in Wireless Sensor Networks: a Survey	189
Ahmad Ghafarian, Randolph Draughorne, Shelley Hargraves, Steven Grainger Securing Voice over Internet Protocol	200
Andrzej Białas, Krzysztof Lisek Integrated, Business-Oriented, Two-Stage Risk Analysis	205
Manabu Hirano, Takeshi Okuda, Eiji Kawai and Suguru Yamaguchi Design and Implementation of a Portable ID Management Framework for a Secure Virtual Machine Monitor	211
László Szabados, András G. Tóth, Gyula Simon Model based code generation approach for fast-deployment wireless security applications	217
Zbigniew Piotrowski and Piotr Gajewski Voice spoofing as an impersonation attack and the way of protection	223
Wojciech Mazurczyk, Zbigniew Kotulski Adaptive VoIP with Audio Watermarking for Improved Call Quality and Security	226
Krzysztof Szczypiorski, Igor Margasiński, Wojciech Mazurczyk Steganographic Routing in Multi Agent System Environment	235
